PROTEST AT RACIST SPEAKER IN UCD

Aine Ni Chonaill is a hardcore racist. She demands that all 'foreigners' be thrown out of Ireland. She says that a multi-racial society where people of different colours live together in peace is 'unworkable'.

Yet despite promoting a message of hate, Ni Chonaill has been given a platform that few other minority views have achieved. Now she is due to appear in UCD on Friday night.

Racist hatred inevitably spills over into violence. Already attacks and abuse of black people in Ireland has increased. Arson attacks have been carried out on a mosque and a B&B sheltering refugees.

Racist ideas are always built on lies and stereotypes of other people. Racists like Ni Chonaill say that Ireland is 'flooded' with immigrants. But only a few thousand refugees have arrived here. There are 7,000 Irish people in one city, Munich, Germany. This is twice as many as the number of refugees in Ireland.

The racists claim that immigrants are a 'burden'. But the real problem is that they are not allowed to work or even attend college. Immigrants, like millions of Irish, have always contributed to the economies of other countries when they have been let.

If you abhor racism, then protest at the attempt of Aine Ni Chonaill to stir up hatred and promote the forcible deportation of all immigrants.

Friday 24th Jan, 7pm, Outside Theatre M

Refugees are welcome here!
